

11 May 1947

MEMORANDUM FOR THE ASS'T. DIRECTOR, ORE:

Subject: National Scientific Intelligence Requirements Program

1. ICAPS has taken note of the statement in the attached memorandum to the effect that committees of the Board in certain critical fields have established intelligence panels.

2. It is the opinion of ICAPS that there is a continuing indication on the part of JRDB to fail to comprehend the proper relationship between JRDB and CIG and that only the most alert conduct of our relations with the JRDB can continue to implement the policy established for CIG by the Director.

DONALD EDGAR  
Chief, ICAPS
